

### *Ice Skating Locations:*

**Evergreen Lake** at Deerpath Park, adjacent to the softball field

**Willow Lake** at Deerpath Park, north of the Cherokee Road entrance

**Grosse Pointe Pond** at Grosse Pointe Blvd. and Hunter Ct.

**Century Park North** on the basketball court near the sled hill. This ice rink will be lit until 9:00 pm daily.

The Park District does not remove snow from the lakes

### *Ice Skating Information*

Skating on District property is allowed only when a GREEN flag is flying at the rink or pond. If there is no flag, skating is not permitted.

Before you head out to skate:

- Call the Park District's weather hotline at 847-996-6616.
- Skate only when ice is 6 " or thicker; ice that is thinner than 6 " is considered to be unsafe.
- Never skate on a lake or pond by yourself.
- Keep emergency equipment nearby and available.
- Report unsafe or dangerous conditions to the Park District.
- Do not skate at night.

During the winter, the Parks Department tests the depth of ice each weekday. Testing is not done on weekends, holidays or during times of storm clean up. Snow removal from paths and parking lots is the District's first priority.

### *New this winter* - Warming Shelter in Century Park North!

The warming shelter, CPN Pavilion, will be staffed on the weekends from 1:00 pm until 9:00 pm and we will offer skate rentals and concession sales. The Pavilion will only be open when the ice rink is open. Check the weather hotline for updates - 847.996.6616.

### *Sledding*

- The District's unsupervised sled hill is located at the north end of Century Park on Indianwood Dr.
- Sledding is permitted when snow is considered deep enough.
- Check the posted sign at the hill to see if sledding is permitted on any given day.
