JR. TRANSPORTATION WORKSHOP (4-6 Years)

Sullivan Community Center

This workshop gives you the chance to learn to draw all the different modes of transportation we use to get around, maybe even some we don't use! Cars, trucks, airplanes, helicopters and more will fill our drawings. We will complete our last day with one large scene including as many roads, bridges and vehicles as we can draw.

PIRATE WORKSHOP (6-12 Years)

Sullivan Community Center

Ahoy mates! Join us as we explore the world of pirates with new drawing adventures! Pirates, treasure maps, sunken treasures, parrots, a grand pirate ship and more will inspire us as we draw, using cartoon and realistic drawing techniques. Kids love drawing our playful, expressive characters and will complete several drawings each day using the unique Young Rembrandts drawing method. They will show you all they have learned over the week when they complete one large scene on the final day. Get ready for pirate fun and enroll today! All materials provided and include pencils, color pencils, Sharpies™ and markers.

PASTEL DRAWING WORKSHOP - OCEANLIFE (6-12 Years)

Sullivan Community Center

Five, fun-filled days await our students as we explore ocean life as they learn to draw and color with pastels. We will create detailed, pastel compositions on each day, focusing on a different ocean-themed subject. We will draw eye-catching sea stars along the shoreline and a pair of vibrant clown fish. We will illustrate a sea turtle with bold patterns, a blue crab and a wondrous scene of jellyfish. Our instruction will bring remarkable results, and you will want to frame your child's finished pastel pieces. These pastel drawings will reward students with a great sense of pride and accomplishment. Enroll today!

YR PRINCESS DRAWING WORKSHOP (5-10 Years)

Sullivan Community Center, Meeting Room B

Join Young Rembrandts as we travel back in time to the Middle Ages for our Castle Workshop. Princesses, knights, castles, and even dragons highlight the spectacular drawings our students will produce. Not only will our students learn how to illustrate period-specific characters and scenes, but they will also strengthen their drawing and coloring skills. From knights in shining armor to elegantly-dressed maidens, our students will learn how to compose a well-drawn figure.

WICKED SCIENCE (Grades 2-5)

Science Snacks

Sullivan Community Center, Community Room

Every day is a new adventure in science! We'll make slime balls and parachutes, remote control rollers, stroboscopes and secret bells. Kids will love doing all the hands-on activities that provide a basis in biology, chemistry and physics. The most heard comment is "I wish we could do more! We are learning important stuff, too!" There are different activities each day.

WICKED SCIENCE (Grades 4-5)

Reaction/Action

Sullivan Community Center

Take a walk into the exciting lab of a chemist where you will mix, measure, and make predictions to 'think like scientists' and also discover why things act like they do. Students will expand their knowledge of science concepts with in-depth activities that use critical thinking and reasoning skills that helps build a strong foundation towards scientific literacy and STEM goals. We will do experiments that explore the different states of matter and their properties which include the molecule 'dance'. We will shine pennies in seconds and blow up balloons without using our lungs. There are many ways to measure what we observe, and we will keep journals to keep track of our investigations. A new activity each day with results that will astound you!

MIGHTY MATHEMATICIANS CAMP (8-11 Years)

Sullivan Community Center

This class is an exciting way for your child to practice their math skills over the summer while having fun. Math enrichment activities include Magic Money Machine, making a Magic Band, and working out a Magic Square. We also find out how many pieces of candy can fit in the classroom, talk about symmetry, and play math card games, among many other fun math-related activities. We will also play team games with prizes. Your children will come home with a passion for math and a greater understanding of math's real-world applications.
