Children are more prepared to act/react when they have basic knowledge and skills. Please use this schedule to review important safety knowledge with your child. Occasionally, children find safety presentations scary or worrisome. Safety Town Camp staff and guest speakers recognize the potential for anxiety or fear and have created age-appropriate lessons that make children feel safe and secure. Safety Town Camp guest speakers may vary. On occasion, guest speakers may cancel their visit due to work emergencies. In the event a guest speaker is unable to visit, Safety Town Camp staff have prepared alternate lessons. Children should wear gym shoes, bring a bike helmet, and dress for tricycle riding (avoid dresses/skirts) every day.
